Applicant notes that, though the aforementioned office action indicates that Applicant should elect a subspecies "if species II is elected," this actually should read "if species I is elected." Applicant confirmed this via teleconference with the Examiner on July 29, 2005.

Pursuant to the Examiner's requirement, Applicant hereby elects the invention of Species I (Figure 2), Subspecies b (Figures 5-6), for prosecution in this case at this time. Regarding the Actuator embodiments identified by the Examiner, Applicant hereby elects Species 2 (Figures 8-9) for prosecution in this case this time.

Applicant submits that claims 22, 24-25, 42-60, and 68 read thereon.

Applicant notes the Examiner has indicated that no claims appear to be generic. Applicant respectfully submits that claim 22 is generic to all claims dependent thereon—namely, claims 23-25 and 42-67. Applicant reserves the right, in the event this claim is allowed, to have the Examiner consider all species on which this generic claim reads, as provided by 37 C.F.R. 1.141. Additionally, any non-examined claims are reserved for filing in future applications.

Respectfully submitted,
